### About company:

SWISSGROW LLP launched a mineral fertilizer plant on the territory of the Astana New City FEZ in 2017. The site has all the necessary communications, road and railway access roads. The company serves markets of Central Asia, the Middle East and the EurAsEC countries and protects its reputation as the first and only «producer of special fertilizers» in the country. SWISSGROW LLP produces specially designed fertilizers and biostimulants to fully meet the nutrient needs of any plant or soil. Innovation helps farmers grow healthier, stronger plants, allowing them to produce higher yields with greater nutritional value and a higher market price.

### About company:

Ocean LLP was established in 1999. The main activity of the company is the export and import of frozen fish and seafood. Today, the company in its own fish shop located in Kostanay produces preserves, salted, dried, dried fish, as well as cold and hot smoked fish. In 2019, a full cycle of production of finished fish products was launched. The company works only with high-quality raw materials; smokes on its own chips, without liquid smoke and without the use of any preservatives. The workshop is made in European quality traditions on the basis of modern equipment. Also in 2019, the company opened a fish pavilion, which offers a large selection of imported and local freshly frozen fish products, as well as dried, salted and smoked fish of its own production at wholesale prices.
